

“Tapestry”

...the Carole King Songbook

PERFORMED BY SUZANNE O. DAVIS AND HER TRIO

Saturday April 21, 2018

Suzanne recreates the sound of a 1970's Carole King concert. This show will bring us the sound and vibe of a 1970's Carole King concert experience following her legendary album, "Tapestry". You will be transported back to the iconic image of her multi-million selling album of 1971. Impeccable attention to detail is taken in recreating a respectful and accurate musical presentation of piano and vocals, just as they were.

Suzanne's performance will take you on a journey back to those great recordings. She has played to sold-out audiences across the US and Canada. Hits like *I Feel the Earth Move*, *You've got a Friend*, *Natural Woman*, *So Far Away*, and *Will You Love Me Tomorrow?* will be performed. And of course, you will hear *Beautiful*. Our magnificent Yamaha piano will be played with the passion that earned Carol King such acclaim.

Not only does Suzanne channel the characteristics of Carole at the piano, but her comfortable stage presentation really endears her to the audience. "I really like to have fun and talk with the audience about the history of the songs. I think people want to feel that we're all sharing these moments together...and we are." You won't want to miss this special evening of Carol King hits.
