

Clubhouse Construction Update

January 11, 2016

- The clubhouse work is almost complete. The only remaining work is the installation of new lighting in the front portico which should be done within the next two weeks.
- The landscaping that was removed in front of the clubhouse has been re-planted. In the Spring there will be some additional plantings to supplement areas on the sides of the clubhouse.
- The perimeter drain around the clubhouse is complete.
- There are areas of concrete sidewalk that need to be replaced. This will be done as the weather permits.
- Areas within the clubhouse that were damaged from the exterior clubhouse work, which includes sheetrock and tile, have been repaired or have been scheduled for repair.
- The fence on the right side of the clubhouse will be replaced in the Spring.
- There will be no further updates regarding the clubhouse construction.
